(57) **CLAIM**

The ornamental design for a quick release camera strap, as shown and described.

DESCRIPTION

FIG. 1 is a perspective top and left side view of a quick release camera strap showing our new design.

FIG. 2 is a perspective bottom and left side view of the quick release camera strap.

FIG. 3 is a top plan view of a housing and corresponding strap portion of the quick release camera strap.

FIG. 4 is a bottom plan view of the housing and corresponding strap portion of the quick release camera strap.

FIG. 5 is an elevational left side view of the housing and corresponding strap portion of the quick release camera strap; the elevational right side view is a mirror image of the elevational left side view.

FIG. 6 is an elevational front view of the housing of the quick release camera strap.

FIG. 7 is a perspective top and left side view of the housing and corresponding strap portion of the quick release camera strap.

FIG. 8 is a perspective bottom and left side view of the housing and corresponding strap portion of the quick release camera strap.

FIG. 9 is a top plan view of a strap adjuster and corresponding strap portion of the quick release camera strap.

FIG. 10 is a bottom plan view of the strap adjuster and corresponding strap portion of the quick release camera strap.

FIG. 11 is an elevational left side view of the strap adjuster and corresponding strap portion of the quick release camera strap.

FIG. 12 is an elevational right side view of the strap adjuster and corresponding strap portion of the quick release camera strap.

FIG. 13 is a perspective top and left side view of the strap adjuster and corresponding strap portion of the quick release camera strap; and,

FIG. 14 is a perspective bottom and left side view of the strap adjuster and corresponding strap portion of the quick release camera strap.

(Continued)

The lighter broken lines of the strap adjuster depict stitching and are part of the claimed design. The bold broken lines of the housing are for the purposes of illustrating environment and form no part of the claimed design.
